

VENUS la Universal s.l.

"Universal" is a small farm of 4 ha. Located in the municipality of Falset (Montsant) with granite soil (gravel) acid and low in organic matter.

Both, vineyards and the growers involved in this project work in the organic way with all respect for the environment. The fermentations are carried out with selected yeasts do not contribute to the aromatic and structural diversity and maintain a respect for each field.

Winemaking

The youth of our vineyards and our partners produce this wine from Grenache, Cabernet Sauvignon, Merlot and Syrah. 60% of the wine ages for 9 months with 3rd and 4th wine barrels of French oak, and the remaining 40% are raised in concrete tank to emphasize the fruit. The winemaking is done in 8-12 days: aeration of the must to a temperature of 28-29 ° C during the first days and some delastage in recent days, without making strong extraction of polyphenols to prevent skin looking young and only the fruit and tannins quality

Composition

65% Grenache, 25% Merlot, Cabernet Sauvignon 10%

For us, Dido is a friendly wine, designed for fun, to start us in the knowledge of the expression of DOMontsant wines and needs a great wine treatment.

Matching.

Especially with good company. It is a wine that can bind to both meat and fish, also with a touch of cold.
